

How is the story of goldilocks and the three bears similar to the perfect atmosphere to sustain life?

the envelope of gases surrounding the earth or another planet. Made of nitrogen, oxygen, and other gases including greenhouse gases.

Nitrogen

the most abundant gas 78% of the atmosphere

Oxygen

21% of the atmosphere

Other gases

1% of the atmosphere....greenhouse gases, CO₂, Methane, N₂O, Ozone, CFC's

Summary:

Important information about the air up

Density

Altitude

Air Pressure

Air

Gravity

Summary:

Altitude

Air Pressure

Density

Why?

Altitude	Air Pressure	Density	Why?
